[attachment "Initial Results Talking Points\_final\_all agency.docx" deleted by Scott Downey/R10/USEPA/US]

Hi All,

Here are the final talking points for the first round of urine sampling. We haven't gotten much communication traffic yet here at Health, so these may not be heavily used but we'll see. I'd appreciate knowing if you are getting calls from media, advocacy groups, community members or other about the release of the letters.

Thanks again for the excellent and speedy comments,  
Jae
